*In celebration of Earth Day, the Harper Lee Center is pleased to present*

## **Living Edens: Big Sur, California's Wild Coast**

Tuesday April 16 and Thursday April 18 at 15:00 hrs

**Living Edens: Big Sur** is a documentary about California's wild coastline region. Narrated by Sally Kellerman and photographed by Bruce Reitherman, this program features the wild animals and plant life that lives in Big Sur, constituting the 100 miles of coastland beneath the Monterey Peninsula. On-location footage explores the mating and feeding habits of endangered birds, ocean mammals, and inland forest creatures. Big Sur is home to rare species of animals, like the California condor, the elephant seal, and the acorn woodpecker.

**Seats are limited! Please sign up for one of the sessions at
